

Hide-Outs

A proper hiding area is often an underestimated and necessary feature of a natural terrarium. Without a safe spot to hide and sleep, reptiles and amphibians will easily develop stress that will affect their activity and appetite. Hideouts also provide a shelter and/or a cooler and moister area in the terrarium.

SKULLS

Secure hiding place

- *Secure hiding for reptiles and amphibians*
- *Ideal for desert and rainforest setups*

The Exo Terra Skull hides are extremely realistic and add an exiting accent to any type of terrarium, desert, rainforest or aquatic. These hides offer multiple entrances for easy access and add an extra dimension to the terrarium setup. Available in three types: Primate, Buffalo and Crocodile.
